

Green Box

Via Sant'Anselmo 25

Green Box is a project that involves anyone who needs space to carry out an artistic and educational project. Green box is an initiatives workshop set up by young people and geared towards any young people, who are looking for a vibrant space where they can realize their ideas.

Numberless initiatives, that go from concerts to cooking classes, book presentation and exhibitions, fund raising for nonprofit organizations to theatre plays and a new approach to modern technology. "The think tank Green Box" gives an impetus to new ideas and space for the most authentic aspects of cultural knowledge.
