

### **Piazza dei Mestieri**

*Via Jacopo Durandi 13*

The "Piazza dei mestieri" is a project that sustains adolescents through the complex adolescent phase into adulthood.

The idea is to go back to the concept of the square as it was once upon a time, a place for learning, meeting one another and growing up confronting others. Thanks to a precise educational program, young people can choose their own path and discover their aptitudes thanks to learning about art, music and cuisine. The building has a spacious reception area which there is the reception, the lobby, the brewery, the restaurant, an internal shop and printing house, all on two floors plus the basement.
