

## Scuola della Musica

*c.so Taranto 160*

The school is located in front of a folkloristic market in Corso Taranto, that is surrounded by green space. The place conciliates studying music, that has been carried forward for over forty years through courses the Turin City Council promotes, paying special attention to didactic culture activities. The students may either deal with approaching music for the first time or improve their musical skills so as to get a professional qualification. Vocal and instrumental classical studies are flanked by musical jazz courses and initiatives that involve schools in musical education.
