

Il Nido della Musica

via delle Rosine 14

The Music Nursery School is a project of the Opera Munifica Istruzione (OMI, a public organization which holds a well consolidated and early children's educational tradition). Having as objective the harmonic development of the child, the nursery is willing to create an environment that is rich of inputs guided by music. The first three years are the most important period for the child's musical aptitude. For this reason, small groups of children guided by an AIGAM (Italian Association "Gordon" for Music learning) associated teacher, and by an educator, will be following activities of "musicainfasce" (music in the cradle) within an atmosphere of amused participation. By singing, the teachers offer to the little ones the chance of enriching their expressive heritage through music.

Events Hosted

- **F1 Musical kindergarten - 1/01/1970**
