

Marene (CN) - Giardino di Palazzo Galvagno

Via Stefano Gallina, 45

Many styles coexist in the pleasant Marene, from the neo-Gothic Castle up to the neoclassical City Hall. The ancient and solidly-built tower, designed by Gallo, dominates the city. But it is mostly the gentle landscape to offer a view on the reassuring hillside overlooking the Alps. The Molinetta of via Galvagno is the testimony of ancient rural customs, and it still resists from the wearing effect of time. The farmhouses spotting the hills, are themselves a piece of ancient history, in addition to the walk offered by the well preserved historical centre. We recommend a visit to the garden of the Palazzo Galvagno, at the above mentioned castle, and to the ancient Tower, the symbol of the city.
