### water

In Torino the water from fountains and tap is drinkable, if not, it's always indicated. Throughout the city, you will find the typical green fountains shaped like the head of a bull, the symbol of the city, called torèt. In the info point you can find the map of torèts. There will be some water distribution points in the main festival venues (Piazza San Carlo, Giardini Reali, Piazza Castello), thanks to SMAT, the water company in Torino. Fill your festival flask!

### Smoking

In Italy, smoking in bars, restaurants, clubs and in all public places is forbidden. Some places may have a smoking room. You can smoke outside.
