

### **Cuceglio (TO) - Tenuta Roletto**

*Via Porta Pia 69/71*

There are no documents proving the origin of Cuceglio before 1019, as well as the presence of the Castle, of which there is no documented evidence, but that should have been located on a hill overlooking the town. Piazza Marconi is at the heart of the old town, surrounded by buildings and shops. The hills of the Canavese area are known for wine production. There are many farms on the hills that produce wine from the native vineyard Erbaluce. A property that has maintained, over the years, the most faithful to the traditional wine production is the Tenuta Roletto, a few kilometers from Cuceglio.
