

Chiusa di Pesio (CN) - Piazza Cavour

Piazza Cavour 10

The Chiusa di Pesio is a small town that has maintained its soul in the craftsmanship tradition, with which it has been marked and preserved for many centuries. You cannot miss a visit to the Confraternite S. Rocco and S.S. Annunziata. The hub of the town is Piazza Cavour, which is surrounded by the main buildings that adorn the city, whose perimeter is guarded by the Municipal Tower, that houses a museum and tourist office. The Chiusa di Pesio offers also an important Charterhouse and, for who loves nature, the Marguaires, an immense natural park with several protected areas.
