

Limone Piemonte (CN) - Piazza del Municipio

Piazza del Municipio

The small country environment, in which Limone is included, is centred in the main square, from which you can immerse yourself in the beautiful mountain setting that surrounds the village. The square houses the town hall and the parish Church, and it is just a few steps away from the Chiesa di San Pietro in Vincoli. The square is a landing place for the pedestrian area, which is closed to traffic during the summer to allow visitors to get lost between arcades and streets. This is an alternative to the many excursions offered by the magical mountain surroundings and by the tranquility of nature, that is the true protagonist of these places.
