

## C11 Atelier Monteverdi

Intertwining of voices and lovers, complicity glances, passion and death but also nature that becomes the metaphor of the soul: here is the Madrigal "the theatre before the theatre".

A journey to discover the overwhelming expressivity of the art of Claudio Monteverdi and of his contemporaries and to reveal his secret and refined language. The universe of emotions that the madrigal enclose is fully shown only to those who have the privilege of singing it. An atelier to really ignite the sparkle.
