

Parco Michelotti, Casa della Giraffa

Corso Casale 48

The Casa della Giraffa, located in the former Zoo Parco Michelotti, is the heart of the Borderland project. As a result of the collaboration between the cultural association BorderGate and the cooperative Agriforest, Borderland gives space and contributes to the development of the associations and cooperatives' activities. The wide open space is the ideal place for the organisation of all types of events, but it has been created mostly with the intention of hosting, during the Summer, institutions and associations in search of the right place where to carry out autonomously their initiatives. Here, it is very easy to structure and organise events for the promotion of one's own work.
