

F2 Workshop for primary school singers

The workshop is an opportunity for children to take part in a choral activity that is parallel to yours, under the guidance of expert teachers and pedagogues and to share it with children from different countries. Different proposals will be activated and there will be a final performance, for single participants and for school choirs (even if they are not complete choirs). Visiting the workshop will be for educators, teachers and conductors an opportunity to confront themselves on methodologies and specific repertoire for this important age range.

Musical requirements: the workshop is open to everybody, with or without choral experience; the activities will take into consideration the different musical skills of the participants.

Applications:

- you can register for single days, as well as for the whole festival
- to have your spot guaranteed, book before the 30th of June
- late booking is possible until the day before, but availability is not guaranteed
