

## Jammin

*Murazzi del Po - Lato destro*

The Jammin was built in 1997, from the of a group of local entrepreneurs. The “cavernous” atmosphere, the arches and barrel vaults, the on-sight stones and bricks, are the characteristics of what has been, since long time, one of the top places of Torino's night life. The Jammin offers also fresh afternoons on the beautiful terrace in front of the Po, a relax point on the roof-garden's lawn chairs and refined cocktails. You can enjoy the sunset on one of the most charming places of the city.

### Events Hosted

- **G15 Breathing technique for singing - 1/01/1970**
- **G23 Breathing technique for singing - 1/01/1970**
