

Some festival pictures!

In the **photogallery**, multimedia area of the website, you can have a look at some pictures of the festival!

If you miss the festival, now you can remind and live again the good times you lived from 27th July and 4th August! :)

From the end of September you will find the whole festival reportage for each day. You can ask then for some pictures via email or download them directly from our website!

Send us your best pictures and the more beautiful will be posted on our website!
