

## Venaria Reale

### Special Day at La Venaria Reale

The beautiful setting of Venaria opens its doors to the Festival! **Monday 30<sup>th</sup> July, in the afternoon**, all the participants will be able to access it for free, listen to a wide range of music and visit this charming piece of architecture. The organisation will arrange a transport service\* from the Giardini Reali (the catering area) to the palace and return, starting from 2 pm. The cost of this service is € 3 (round trip) and it requires advance online booking (the procedure will be mentioned in the next few days).

\* A free shuttle service, departing at 8.30 am from the Giardini Reali to Venaria, will be provided for the participants of the discovery ateliers G31 and G32 and atelier A11.

*The Reggia di Venaria, located in Torino's closest neighborhood, is one of the most visited art sites of Italy. It was built in the XVII century as a hunting base and, after centuries of oblivion, it shows again its ancient marvels: decorated halls, luminous corridors, wide courtyards and beautiful Italian style gardens. These are all great locations for events and art exhibitions.*
