

G11 Family Singing (part I)

The pleasure of singing is the aim of the atelier.

Songs with movements, songs to sing sitting on chair...

Singing in several voices, singing with children and adults together, easy parts for those who don't have much experience in choir singing, other parts for those who are used to sing.

*The atelier is conceived for families, therefore we encourage the participation of groups of at least one child and one adult. The atelier has in two parts, one on Saturday and one on Sunday, with different programmes, therefore you can register to both and follow it as a two-days atelier.
