

## G13 Choral Flash Mob

Let's surprise the people of Torino with a funky flash mob during the festival opening. If you have some karaoke experience, like to challenge your friends in SingStar on your PlayStation, or have spent some nights on the dance floor, you are the right singer for this discovery atelier.

The atelier should prepare a colourful participation to the Opening Parade in Torino streets, in the afternoon. Kjetil Aamann has created choral flash mobs at sports events, airports, shopping centres and other public places.

**Atelier with performance!**

## Kjetil Aamann (NO)

He has been working in theatre and broadcasting but first and foremost a conductor of choirs and orchestras. He believes that every person has musical intuition and creativity and that every music rehearsal should be fun.
